Cool, I wasn't sure if you had actually gotten started with drafting.

Would you mind drafting the same amendment for the Senate bill (616)? Senator Risser will need to offer that in parallel to our amendment.

When I spoke to Sherrie yesterday, she gave me instructions and said that she was authorized to do so by Rep. Molepske. So I went ahead yesterday and drafted most of those changes. So, if you just want me to draft what Sherrie told me to draft, I do not need to get anything further from your office. Let me know if you want me to wait for more instructions.

Thanks.

Robin, you can hold off on drafting these new changes into the CORE amendments. Focus on the amendment to the standalone AB 843 bill. I'm still waiting on Sherrie for the exact instructions on the changes, so I or Kathy will send those over as soon as we get those.

Thanks,

Eric

Eric:

I cannot be sure that I can have a draft by Monday until I have all the instructions. Once I receive the instructions and draft the amendment to AB 843, you will need to let me know if the amendment is O.K. before I can work it into the amendment to the CORE bill. As for the CORE bill amendment, I would assume that you don't want an amendment to the amendment but, instead, would like the CORE bill amendment to be redrafted to incorporate Sherrie's latest changes. Once I receive final instructions from you, I think we will need to discuss all of this by phone. Also, given that this will likely involve weekend work, I will need phone numbers in order to reach Sherrie and the contact person from your office for any questions that I may have over the weekend.

Thanks.

Robin –

I know you've been in talks with Sherrie Gruder on this amendment to the High Performance Green Building bill that deals with changes in the code language of the legislation. She's sending the changes you've discussed to me, and I'll forward them to you once I have them.

In addition, due to the recent amendment of AB843 to the CORE bill, we'll need this drafted as an amendment to that amendment. Any way that could be ready by Monday? CORE is being taken up Tuesday morning, so we'd like to have all the amendments squared away by then.

Thanks for all your help, and keep an eye out for my changes.

Mary – this is just an FYI, these changes are fairly minor and probably won't require a memo.
